

PlaceStormers:

A manifesto

OUR DEMANDS:

- 1• More Play,
- 2• More Expression,
- 3• More Space,

and

- 3• Everyday Superpowers

OUR BELIEFS:

- 1• We recognize the use of public, community, transitional and in-between spaces as extensions of the home.
- 2• We observe that each of these built environments contain and constrain specific possibilities for action and interaction.
- 3• We believe that by detecting and calling attention to these structural forces, we can play with them.
- 3• To enable this play, We seek the proliferation of personal tools for use in everyday spaces.
- 4• We believe these tools should make their users feel like superheroes.

OUR MODUS OPERANDI:

- 1• PlaceStormers create contexts, and then act in those contexts.
- 2• PlaceStormers construct platforms, and then play on those platforms.
- 3• PlaceStormers build bridges, and then invite others to cross them.
- 3• PlaceStormers define opportunity, and then invent tools to seize it.
